EXPERIENCE

BROOKFIELD PROPERTIES, **Chicago, IL**

Back End Developer, Sept 2022-Oct 2023

- Developed Adobe Experience Manager (Java/JavaScript/HTML/CSS) platform to implement new features for custom website-editing software allowing mall owners to easily customize their websites' content.
- Developed Flask (Python) concierge website and logic around customer order statuses.
- Used Azure Cloud Platform for continuous deployment cycles.
- Implemented Spring (Java) features for mall/customer data.

CVS HEALTH, **Buffalo Grove, IL**

Full Stack XP Engineer - Sr Analyst Jan 2019-Aug 2022

- Worked in a collaborative XP agile environment with PMs & UX teams to implement new features via Test Driven Development (TDD) and Pair Programming to ensure quality code, achieving over 95% code coverage with Jasmine/Cypress in SonarQube.
- Created Angular(TypeScript/HTML/CSS)/Spring Boot(Java/Kotlin) full-stack web applications for a $750 million analytics tool that improved business analysts' efficiency, allowing the signing of contracts and sending of invoices to be done electronically.
- Contributed the completion of web applications (full stack) to create easy to read sales/rebate data, reducing analyst time and simplifying work flow.

LAW BULLETIN PUBLISHING COMPANY, **Chicago, IL**

Software Tester, Dec 2016-May 2017

- Helped facilitate code deployments by identifying code errors.
- Tested server's responsiveness using automated Java program.

AMS, **Burr Ridge, IL**

Information Technology Intern, Nov 2014-Apr 2015

- Troubleshot network connectivity problems.
- Partitioned hard drives and installed new software for employees.
